2016 Coalition Report

- 200 agencies were active within the Coalition through 7 work groups, quarterly meetings, The SCALE program, The OKC Mobile Market, and Open Streets OKC.

- Full Coalition quarterly meetings averaged attendance of 75 members. Subject Matter Experts spoke and covered topics including mental health, addiction recovery, criminal justice reform, and how to build a driver diagram for goal setting.

- The Coalition partnered with INTEGRIS and The Public Health Foundation to create and begin implementing a driver diagram specific to mental health and addiction recovery. The Mental Health work group and the full Coalition spent several hours collaborating on the final product. As a result of this process, the Mental Health work group now has a defined direction with the Coalition’s support for the next 3-5 years.
  - After completing the driver diagram and beginning to implement many of the projects, the work group received an award from the Public Health Foundation titled the Future of Population Health Award in partnership with INTEGRIS. This award recognizes forward thinking partnerships of hospital systems and local health departments.

- End of year evaluations completed by members showed that 79% of members feel that being involved in the Coalition is worth their time and 84% feel that the Coalition is doing measurable work to improve health. There were 66 responses total.

- The Coalition participated in The SCALE program through the Institute for Healthcare Improvement and the Robert Wood Johnson Foundation. 5 team members from the Coalition traveled to several intensive training conferences called CHILAs to learn new and innovative community health improvement strategies. Many of these strategies have already been implemented and will be implemented as the Coalition develops its 2017-2020 Community Health Improvement Plan. Team members included Shannon Welch with OCCHD, Clarence Hill with Stronger Together OKC, Carrie Blumert with OCCHD, Cari Berlin with the Regional Food Bank, and Susan Ward with INTEGRIS.

- The Coalition hosted two Community Health Improvement Leadership Academies (CHILAs)
  - The 3 day national CHILA included 100 participants from all over the United States.
  - The 1 day local CHILA included our own co-chairs and staff facilitators.

- All work groups had an active membership of 10-15 agencies and 15-30 members.
  - Adolescent Health
  - Care Coordinating
  - Faith Based
  - Health at Work
  - Mental Health and Addiction Recovery
  - Physical Activity and Nutrition
  - Tobacco Use Prevention
